

## FRAMERS' WORKSHOP

*Cutting corners since MCMLXXVI*

# Picture Framing Supplies Boston

---

Framers' Workshop has been framing pictures in Boston for over 36 years. We do good work, and so can you. At Framers' Workshop you can do your own framing or have us do it for you. You can also simply purchase your materials to go – same day.

Framers' Workshop first opened its doors on Washington Street in Brookline Village in 1976. In those days, there were several shops in the Boston area that offered do-it-yourself framing. Today, we're the only one left. In 1991 we relocated to our current, more spacious, storefront at 64 Harvard Street. And although our crew might change over time, we keep ourselves staffed with sharp and resourceful employees, many of whom have arts backgrounds themselves.

## Custom Framing

Plenty of experience framing just about everything. Original art, textiles, sports jerseys, garden tools; you'd have to try pretty hard to stump us. And just because it's affordable doesn't mean its low quality. We'll do everything in our power to ensure that you're happy with your finished product.

## Do It Yourself

Framing your own artwork is the best way to save yourself from custom fees and waiting-time. At Framers' Workshop we have ten do-it-yourself workstations and a collective 100 years of framing know-how. For a \$3 shop fee, we'll help you with your project step-by-step. If you have a question or feel a bit confused –don't panic– just let us know. If you make a mistake, we'll correct it to the best of our ability.

## Framing Materials

### Mouldings (1000's on display)

- wood
- aluminum
- finished-edge
- floaters
- shadowboxes
- ready-mades
